I am glad to give this testimonial regarding the invaluable work being done by ICARE Eye Hospital & Post-Graduate Institute, Noida which is an unit of Ishwar Charitable Trust for providing medical ophthalmic relief services to the deprived sections of our society over last 22 years in the field of community eye care, training and education of Medical and Para-medical personnel.

I have seen ICARE Eye Hospital and Postgraduate grow into a Foundation of excellence in eye care delivery at par with International Standards for all classes of society. Dr. Sushil Choudhry's passion focused on underprivileged and the deprived makes the institution known for philanthropy of highest order. He has spearheaded charity work in UP, Haryana, Rajasthan and the slums in National Capital Region.

ICARE has provided eye treatment to millions of rural underprivileged and restored eye sight of lakhs giving them a fresh lease of life. The endeavour is to provide a cutting edge treatment to all patients irrespective of their socio-economic strata. A state of the art ICARE Eye Bank has contributed immensely in the fight against corneal blindness, thus has raised awareness of eye donation.

ICARE is associated with various PSU's like NTPC, BHEL, IndianOil and organizations such as HelpAge India, Help the Aged UK, Japan Embassy, British High Commissions, to mention a few. A large number of well wishers of ICARE have supported this cause for upliftment of the society through their CSR and philanthropic activities.

ICARE has helped teach and train hundreds of Medical and Para-medical staff who eventually serves the society. He has been active academically and has contributed to various research papers and chapters books in National and International Journals of Ophthalmology.

With kind regards,

Yours sincerely,

Dr Mahesh Sharma
